Good morning Tiffany,

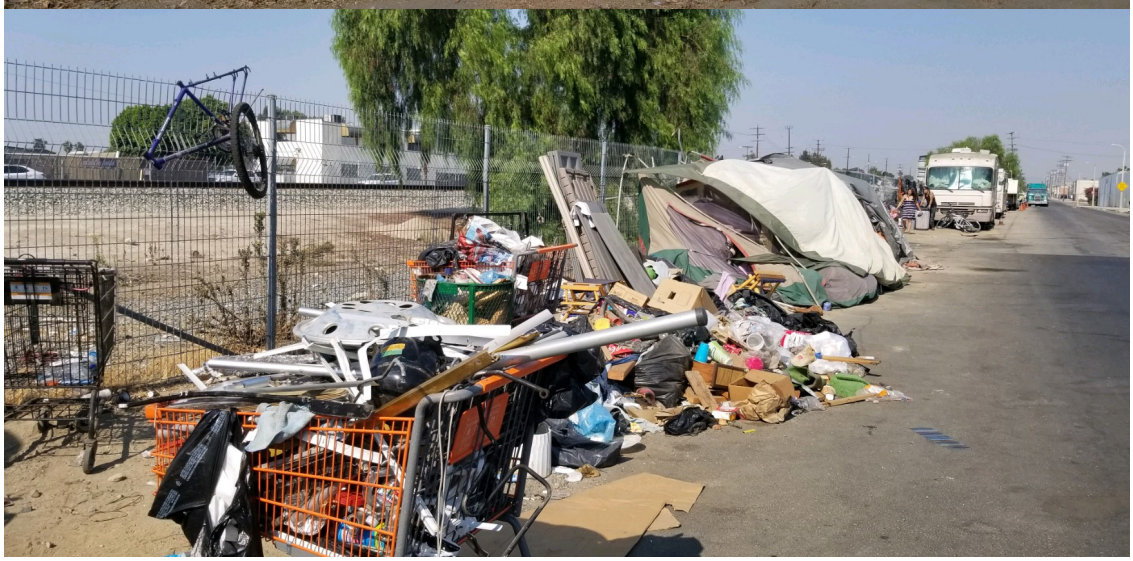

I have attached the photos from yesterday.
Also, I just wanted to let you know that left the team at about 11:25 at San Fernando Rd and Wheatland Ave. After I left, it is my understanding that they were still there for another 30-45 minutes.
Let me know if you have any other questions or concerns.

EVERYTABLE

Thank you,
Abraham Abrahamian

> Hi Abe,

Can you please send me before/after photos of today's RV Pilot. I went around 11 AM and the team was already gone, but Metrolink was still there working on the railroad side. I received 3 calls from constituents who own businesses on SF Rd. so I want to be able to supply them with photos as a reference.

Best,
